COOLER TRAILER PARTICULARS

Our Trailer runs on 220v Power (Dryer, Stove or Welder plug) we have about 60ft of cord but the closer to the cord the less chance of someone tripping or cord damage. After confirming the booking, we would like a photo of the plug that it will be plugged into – so we can deliver the correct adapter. If you are renting a Venue for your event, please give us their con-tact information and we can reach out to them to find out what they have. If 220V power is not available at your venue we have a generator in the Trailer unit, there may be small additional cost, and you need to provide the fuel (regular Gasoline). Kegs of Beer can be run in the Trailer for larger events, there may be charge to cover the Beer Gas and Cleaning depending on the size of your event.

It is the customer's responsibility to provide a contact person for damages if they will be out of town following the event.
